

# Environmental Policy

We believe that all businesses whether in the industrial sector, service or retail should be responsible for maintaining good standards of environmental practice. We are therefore committed to continually improving our environmental performance and reducing our impact whilst encouraging, and assisting our clients and business associates whenever possible.

Not only does it make sound commercial sense but more importantly we see it as a duty of care towards future generations.

With a focus on sustainability and environmental responsibility, Halcon Print & Design is the first print company in the north east of Scotland to be awarded FSC certification.

Our policy is to:

- Monitor the availability and uses products and services that do the least damage to the environment
- Support the purchase of materials that are sourced from sustainable and renewable areas
- Continually check and track the provenance of environmental credentials applied to our materials
- Asses the environmental impact of any products or services we intend to procure in advance
- Ensure any new processes in our workplace are an improvement on environmental impact
- Minimise waste and re-use or recycle as much as possible
- Provide our clients with clear choices regarding the purchase of materials that minimise environmental impact
- Update our policy annually in consultation with staff, suppliers and clients
